

An Aquatics Center to serve Our Community

As a leader in aquatics programs that have served the Oakland community for multiple generations, having an Aquatics Center at the Downtown Oakland YMCA is paramount to achieving our mission. Just as important is the pride that our community has in our facility and the programs we offer in it. Through our water safety and healthy living programs, our pool is one of the main areas of our facility that receives the most use by all ages, infants through seniors.

To ensure that our facility supports the best aquatics programs we can offer, we will be closing our pool for 3 weeks to conduct needed improvements to our pool and its surrounding area. We are excited to create an Aquatics Center that our Members and our greater Oakland community can feel proud of, knowing that it will continue to help our community thrive for generations to come.

Swimming Pool Renovation Project Goals
